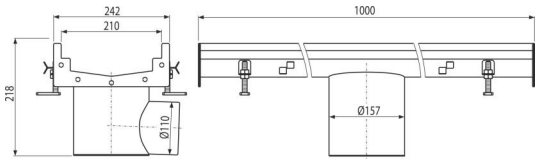
APR6-1211-210

Industrial point drain with box inlets 250×250-210, stainless steel AISI 304



Application

For drainage of large industrial facilities, and other commercial facilities inside buildings, eg. in the chemical and food industries
To drain large amount of water, suitable also for long distances

Features

- Industrial drain made of stainless steel (heat treated by pickling and passivation), this process guarantees that the stainless steel even after several years keeps its properties and reliable operation
- The whole system is firmly anchored in concrete by simply adjustable legs and side anchors
- High flow rate
- Adjustable height in the range of 85–125 mm
- Used sealing ensures a completely watertight joint
- Floor drain material: stainless steel 1.5 mm, DIN 1.4301

Scope of supply

- Floor drain
- Sealings 1 pc
- Adjustable feet 4 pcs
- Strainer to capture the dirt
- Odour trap
- Fixation set
